THE MONTHLY PUBLICATION  
OF EAA ULTRALIGHT  
CHAPTER #104

## June 2014

### From The President

Hey everybody! The weather has just not settled down enough for much flying lately but I have added just over 2 hrs to my MX. I want to thank Skip for a hot tip to keep the mice out of my plane by placing dryer sheets here and there in my MX. I also do my lawn mowers the same way. I hope as many members can come to the June meeting as possible. I hope we can plan a Saturday cookout and fly in at Gainesboro (Jackson County Airport) and asked Bill Tabers to come if he could maybe help us make those arrangements. I talked to the President of the EAA Chapter 162 at John Tune and they would like to get involved in this too. So everyone come if you can. Be safe!

## Ultralight Day Coming to Pioneer Airport June 14

**May 1, 2014** - EAA's Pioneer Airport will be transformed into a fun fly zone on Saturday, June 14, as up to two dozen ultralights and light aircraft fly to the grass airstrip for Ultralight Day 2014.

Members of EAA Ultralight Chapters 1 (Southern Wisconsin) and 75 (North Central Wisconsin) will fly their ultralights, and light-planes to EAA's [Pioneer Airport](#) to show the public what fun flying is all about.

“This will be a great opportunity for anyone visiting the EAA museum to see up close and learn more about this fun, affordable segment of aviation,” said Timm Bogenhagen, EAA ultralight & light-plane community manager. “Affordable fun is the core of this kind of flying.”

Two mass arrivals will take place between 9-10 a.m., and each chapter has a designated flight leader that will be leading their chapter's flight of aircraft in for landing on Pioneer Airport's grass runway, weather permitting. At about 1 p.m., pilots will conduct several proficiency events like accuracy landing, torpedo runs, and bean bag drops. Those scoring in the top three of each event will receive a special plaque.

Admission to Pioneer Airport is included with regular [museum admission](#). There is no charge for EAA members.
